

25 January 2021

Dear Joseph,

Thank you to you and your Team for your current and past accounting, tax and auditing services for the past 9 years. I don't recall we have missed any filing and statutory deadlines, thanks to Good Earth's efficient procedures!

As you aware, we are a global US Company with Taiwan falling within our Asia Pacific region. We required a local professional service partner that would provide us with guidance on all our financial statutory requirements. Good Earth was recommended to us by our Solicitors and we are glad we took up their recommendation.

We look forward to continue-ing our relationship in the future.

Best regards

Guy Soo

Financial Controller, Asia Pacific
